Same-Sex "Marriage" Bill Resurrected

Victory was sweet while it lasted, but now it's back to the battlefield to defend traditional marriage as AB 19 lives on.

He promised he would and he's delivered on his commitment. Homosexual Assemblyman Mark Leno (D- San Francisco) wouldn't take two failed floor votes on AB 19 and concede defeat. Instead, he has employed the "gut and amend" tactic to insert his same-sex "marriage" language into AB 849, a marine research bill that had already cleared the Assembly and is now in the Senate. The amended AB 849 is currently in Senate Rules for assignment and we will advise you of its path when known.

Action: Please begin contacting your state senator and the governor now, encouraging them to oppose AB 849.
