2009 Issues Alert

*With both a liberal president and Congress,
2009 is of great concern to CWA.*

We are anticipating that we will have the following issues to confront:

- Barack Obama promised Planned Parenthood that his first act as President would be to sign the **Freedom of Choice Act** – a bill that would eliminate every pro-life protection ever passed, from parental notification to the partial birth abortion ban.
- Liberals who now have a solid majority in Congress want to censor Christian and conservative broadcasters by passing the so-called **Fairness Doctrine**.
- Congressman Barney Frank wants to weaken our **military** by allowing homosexuals and reduce spending for **national defense** – while he increases spending for massive new **welfare** programs.
- Obama promised homosexual groups that he will overturn the **Defense of Marriage Act**, which could lead to judges claiming that the marriage protections for which we fought so hard are unconstitutional.
